**W** Welcome to our special exhibition, *Beyond Earth*. Today, I'll take you on a journey through the history of space \_\_\_\_\_. First up is a video of a satellite launch. A \_\_\_\_\_ launch means sending a satellite up into space. This video, the launch of Sputnik 1, was recorded in 1957. It was the first \_\_\_\_\_, man-made satellite in history, which marked the beginning of the space age. \_\_\_\_\_ on, this is a picture of a very special man. His name was Yuri Gagarin. He was the first human to travel to space in 1961. He \_\_\_\_\_ around Earth once and safely came back home. Now, take a look at this extraordinary \_\_\_\_\_. It was worn in 1969 by the famous Neil Armstrong. He was the first man to \_\_\_\_\_ on the Moon in the Apollo 11 mission. How cool!
