

Class: _____ Name: _____

Unit 6 Technology

* Listen and write.

A (TR 41)

- G** Did you watch the trailer for the new movie, *AI*?
- B** Yeah, I did. It looked interesting.
- G** Hey, would you ever get a robot _____, like in the movie?
- B** I think I would. I'll have it clean the house and do the dishes.
- G** Hmm. I'm not sure about getting one myself.
- B** Why not? Doesn't it sound convenient?
- G** It does. But what if the robot starts thinking on its own? What if it gets angry at me one day and starts _____ me?
- B** I think you watched too many _____ movies. That kind of thing won't happen for another hundred years or so.
- G** Are you sure?
- B** Of course. A robot housekeeper will _____ you _____ your work, cook food for you....
- G** Oh, will it cook for me?
- B** Sure! And it'll make your food just the _____ you want it.
- G** Uh, maybe I'll get one to have it cook for me then.

B (TR 42)

- B** I love my new wireless earphones. They're so _____.

- G** I agree. I want to thank whoever invented _____ Bluetooth technology.
- B** Well, I don't know who _____ the technology, but I know it was named after a Danish king.
- G** Really? How did that happen?
- B** A long time ago, this king named Harald Bluetooth brought different Danish _____ together.
- G** All right.
- B** And you know how Bluetooth technology can _____ all kinds of different devices together, right?
- G** Yes. I'm connecting my Bluetooth earphones and smartwatch to my smartphone right now. And I even connect my Bluetooth speaker at home too.
- B** Right. So, the technology brings different smart _____ together, like how the king did with different tribes.
- G** Aha, I see.
- B** Also, even the Bluetooth symbol comes from the king's _____ H and B written in Danish.
- G** Oh, that's what the symbol meant. That's interesting.

C (TR 43)

- W** Drones have a wide range of usages in our lives. Who can tell me where or how they're used? Yes, Pete?
- B1** They are used to put out fires on mountains. I saw it on the news once.
- W** You're right. Drones are _____, meaning no one is flying on them. So, they're used in dangerous situations such as putting out fires.
- G** Similarly, I saw drones _____ something over farm fields on the

news too.

W Yes, Sue. Drones are indeed used in farming too.

G But why, Ms. Becker?

W Farming drones usually have various cameras and _____. So, they can spray helpful chemicals over farm fields very quickly and _____.

G I see.

B2 Drones are also used for TV shows. They record videos from the sky, so we can see wider shots and _____.

W Good example, Max. Drones can shoot videos from _____, so they make scenes look more interesting.

D (TR 44)

B Technology is all around us. Thanks to technology, we use different devices every day that make our lives easier. How _____ does technology help each one of us? I interviewed my friends to find out. This is Amanda. Her grandpa lives in Switzerland. So, she often makes _____ to both see and talk to him. Before there were video calls, Amanda had to fly all the way to Switzerland to see him. This is Tom. He uses an electric toothbrush. It helps him brush his teeth better. Before he used _____ toothbrushes, he used to go to the dentist a lot. Now, he doesn't go as often. And this is Kate. She loves exercising. She always wears her _____ when she exercises. She says the watch tells her about her overall _____ and how much she exercised that day.
