There are many different types of _____. Some types of mass media are for news and information. Some examples include TV shows, websites, and newspapers. Others are for entertainment and _____ including movies, TV shows, video games, and music.

There are some common _____ about _____ forms of mass media. Many of these debates have been going on for a long time. One of the most _____ debated topics is about what kinds of mass media is _____ for children. What kinds of music should kids be _____ to listen to? What kinds of video games are OK or not OK for kids? What kinds of movies should children be allowed to watch? These debates don't have a perfect or absolutely correct answer.

A good way to _____ or debate these topics is to use the Socratic Method. In this method, two or more people talk about an idea by asking and answering questions. By asking the right questions, they can check _____ the idea makes _____ or not.

What do you think about these debates about mass media? Should adults _____ the types of music, movies, and games children are allowed to have? Why or why not?

1. There are a lot of places where the use of smart phones is banned.

→ _____

Some are public places like movie theaters, classrooms, and libraries. Others are places where people are traveling. Some examples include on airplanes, and while driving a car.

There are two main reasons for banning the use of smart phones in certain places. The first is for safety. People shouldn't use a phone while they are driving, for example. It could cause them to injure themselves or others.

2. This is also true when people are simply walking down the street.

→ _____

3. People should always pay attention to where they are going and what they are doing while traveling.

→ _____

4. Another reason the use of smart phones is banned in certain places is for comfort.

→ _____

In some places, people might feel uncomfortable if others are using a smart phone.

5. In a movie theater, for example, other people will get distracted and feel uncomfortable if someone is texting or talking on a smart phone.

→ _____

Is there any place that there should be rules about smart phones? Can you think of anywhere it's not good to use a smart phone because of safety or comfort?

C After listening to and watching the video, choose the best title for the video.

<input type="checkbox"/>	We need to use safer kinds of energy. Natural energy like wind, solar, and water are all examples of safer forms of energy. Thorium is another example of a safer form of energy that could power cars in the near future. And the people who invent this first will be very successful, famous, and rich. Can you think of other forms of clean energy?
<input type="checkbox"/>	Fossil fuels are very bad for the environment. They damage the earth's ozone layer. This causes global warming. Global warming causes more natural disasters. It also causes hotter weather patterns. This isn't good for plant and animal life on earth.
<input type="checkbox"/>	Another reason that fossil fuels are harmful to the environment is that they make pollution. When accidents happen, extremely large amounts of harmful substances pollute our land and water. This is harmful to plants and animals, including humans.
<input type="checkbox"/>	If humans continue to pollute the environment by making and using fossil fuels, life on earth will be destroyed. We must stop using fossil fuels for energy.
<input type="checkbox"/>	Today's vehicles rely on fossil fuels, which pollute the environment. Fossil fuels are also expensive to make and use. Other forms of fuel may be better for the environment, but they aren't safe. We need to make safer, cleaner forms of energy to power our vehicles.

It's important to be able to _____.
We use fractions in real life for many things.

One thing we use fractions for in _____ life is cooking.
We need to be able to _____ when
we cook in order to prepare and cook food _____. Too
much or too little of even just one ingredient will cause problems. It could
make the food taste bad. It could also cause the food not to cook properly.

We use fractions of other things in real life, too. We use fractions when
we want to _____ something. For example, sometimes we
share food with others. We need to _____ the amount
of food _____ between everyone. Another way we use
fractions is when we want to divide work or money _____
among a group of people.

We use fractions for many things in our daily lives. It's important to
know how to calculate fractions well. How have you used fractions in your
real life?
