## II. Cloze Test

### Questions 6 - 10

Neuroscientists and psychologists now know that the human mind does not act like a video camera, recording and replaying everything faithfully. Rather, human \_\_\_\_ (6) \_\_\_\_ is a complex process vulnerable to distortion at every stage. The \_\_\_\_ (7) \_\_\_\_ of memory can be divided into three basic steps.

The first step is perception and processing. This is when an event is \_\_\_\_ (8) \_\_\_\_, and then “bits” of information are stored in the neural networks responsible for memory. Since the human mind can’t possibly process and \_\_\_\_ (9) \_\_\_\_ every piece of information it receives, it filters out most of the information in accordance with the viewer’s attention and focus. In the second step, the brain sorts and retains the memories so that they can be \_\_\_\_ (10) \_\_\_\_ later. The third step involves a search of our memory “files” to locate information.

6.     a. witness  
       b. vision  
       c. memory  
       d. brain

9.     a. expect  
       b. educate  
       c. retain  
       d. distort

7.     a. process  
       b. research  
       c. factor  
       d. event

10.    a. included  
       b. retrieved  
       c. revealed  
       d. combined

8.     a. determined  
       b. perceived  
       c. involved  
       d. contributed

### III. Reading Comprehension: Based on the reading in section II, fill in the chart with the information below.

<del>The mind cannot store all information.</del> 11. The brain searches for and retrieves information. 12. People perceive an event. 13. Information is stored.	14. The brain sorts and keeps important information. 15. Information is filtered according to the person’s focus.
---	--

The Process of Memory		
<b>Step 1</b> a. _____ <i>The mind cannot store all the information.</i> b. _____ c. _____	<b>Step 2</b> d. _____	<b>Step 3</b> e. _____

#### IV. Word Study: Match the word to its definition.

- a. A description of what could possibly happen
- b. Quickly and easily
- c. To officially state
- d. Openly and clearly
- e. Occurring between two times or events

- 16. render \_\_\_\_
- 17. intervening \_\_\_\_
- 18. scenario \_\_\_\_
- 19. readily \_\_\_\_
- 20. explicitly \_\_\_\_

#### V. Fill in the blank with the correct word.

proposition    conception    readily    predominantly    thereby
--

- 21. Nick is a kind person who always \_\_\_\_\_ helps anyone in need.
- 22. The \_\_\_\_\_ we are debating is the following: "All citizens have an obligation to vote."
- 23. Ashley missed the midterm exam, \_\_\_\_\_ destroying her chances for a good grade.
- 24. The province has a few large cities, but it is \_\_\_\_\_ rural.
- 25. In this book, the author explains her \_\_\_\_\_ of art and why it is important.
