

SCHOOL Phonics

School Phonics is a four-level phonics series designed to make phonics both easy for teachers to teach and enjoyable for students to learn. The systematic curriculum works to establish a solid foundation of phonics skills for students, providing them with effective tools for basic reading and writing. School Phonics also takes students on a spectacular journey through a series of stories graded specifically for their level, helping them to further develop their knowledge of phonics and become independent readers in the process.

Features

Designed for EFL Students

A systematic syllabus allows students to easily see the progression from single letter sounds (the alphabet) to vowels and consonants.

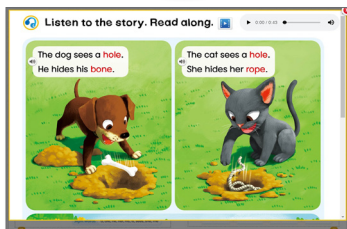

Lots of listening activities – EFL students need a lot of listening practice, since they won't receive as much of it outside the classroom.

A blended approach to phonics learning – students will start with the individual sounds and then see them in words, sentences, and stories.

Fun and Interactive for Students

The series includes a lot of fun activities for students to practice the phonics they've learned in the student book. These include:

- Hybrid app with fun games
- Story animations
- Board games
- Online platform with engaging activities

Features

Graded Readers

Level 1	Aa Bb Cc		4
Level 2	Dd Ee Ff		12
Level 3	Gg Hh Ii		20
Level 4	Review 1	Aa-Ii	28

Each student book comes with a **graded reader**. These give students a chance to practice the phonics skills they've learned while reading a fun story. Each story also comes with writing, comprehension, and phonics review questions.

Great Foundation

School Phonics is a great foundation program for students starting a primary English program. Phonics gives students basic speaking, listening, and reading skills which improves their motivation and confidence.

II. Review Lesson Flow

Review Lesson

The collage shows four pages from a student book. The first page is 'Unit 4 Review 1' with 'Listen and check' and 'Listen and circle' activities. The second page is 'Review' with 'Listen and number' and 'Look and check' activities. The third page is 'Review 1' with 'Look and write' activities. The fourth page is 'Review 1' with 'Look and write' activities.

The review lesson focuses on different review activities, ranging from listening to reading and to writing. Students will get a chance to listen to the target sounds in the context of meaningful sentences and apply the knowledge they've learned in prior units.

More Review Practice

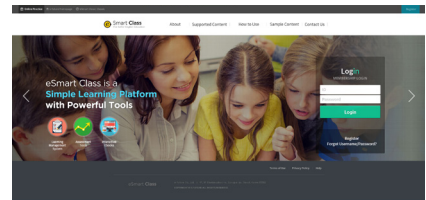

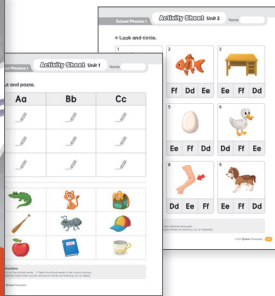

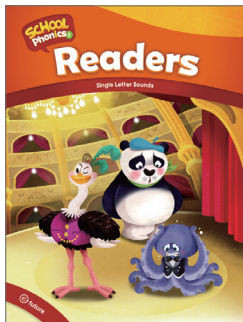

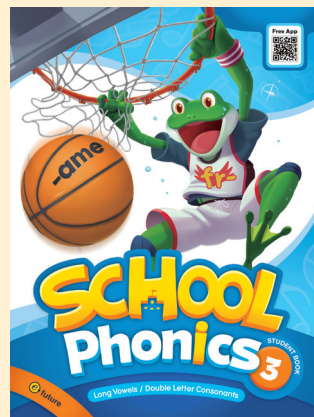

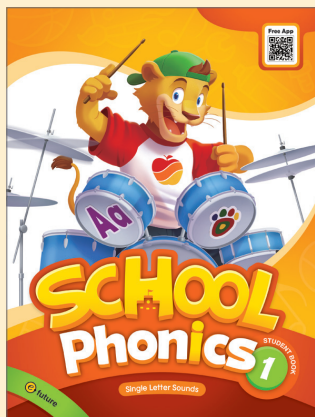

To further review the target sounds, a reader comes with each student book. The readers include fun stories, audio tracks, story animation, review activities, and projects. Furthermore, in the teacher's manual, there are more worksheets for students, such as storybooks, playlets, worksheets, and more.

The collage shows four pages from a teacher's manual. The first page is 'Story Check-up' with 'Look and number' activities. The second page is 'Phonics Check-up' with 'Look and check' and 'Look and trace' activities. The third page is 'Wake up, Elephant!' with 'Make your own flashcards' and 'Make your own story cards' activities.
